BRIEF ABOUT ME

As an accomplished full-stack web developer, I possess a diverse skill set and extensive experience in web design and development. Proficient in HTML5, CSS3, and JavaScript (including ES6), I excel in creating engaging and responsive web interfaces. My expertise extends to frameworks like Bootstrap 4 and 5, as well as preprocessors such as SASS and SCSS.

I have a solid understanding of data visualization libraries like Three.js and Chart.js, enabling me to create dynamic and interactive data presentations. Furthermore, I am well-versed in implementing RESTful APIs and have a strong background in managing databases, including MySQL, MongoDB, and Postgres. I am adept at handling server-side logic and have experience in PHP, Node.js, and Spring Boot.

With proficiency in Git, I ensure effective version control and collaboration within development teams. I possess a keen eye for testing and debugging, maintaining the quality and reliability of web applications. My knowledge extends to authentication, authorization, and data protection, ensuring secure and robust systems.

I am also skilled in various programming languages, including C++, C, Java, Python, and C#. Additionally, I have expertise in Unity for game development, as well as knowledge of data structures and algorithms. My familiarity with Laravel, Vue.js, and WordPress further demonstrates my versatility in working with diverse frameworks and platforms. Furthermore, I am experienced in Docker for containerization and have a working knowledge of Kafka for scalable messaging systems. My commitment to continuous learning and problem-solving allows me to adapt to new challenges effectively.

With a strong work ethic, attention to detail, and a passion for delivering exceptional results, I am confident in my ability to contribute valuable expertise to any project. I am excited about the opportunity to collaborate on new ventures and take on exciting endeavors.

SOME OF MY WORK

Egy Oil Website (https://egoil.net)

EgyOil Website is an online platform for buying and selling car oil. It offers a wide selection of high-quality oil products from top brands. With a user-friendly interface, customers can easily search, compare, and purchase oil based on their car's specifications. The website ensures secure transactions, responsive design, order tracking, and reliable customer support. EgyOil revolutionizes the car oil purchasing process, providing a seamless experience for customers.

### EgyptFreshEnergy Website (https://egyptfreshenergy.com/)

EgyptFreshEnergy Website is an online platform that showcases a wide range of organic vegetables and fruits offered by the company. With a user-friendly interface, visitors can explore product listings, complete with detailed descriptions and captivating visuals. The website also highlights the company's commitment to sustainable farming practices and offers services such as customized subscriptions and home delivery. Through its informative blog and responsive design, EgyptFreshEnergy establishes itself as a trusted source for organic produce and promotes healthy, sustainable living.

Zamil Construction Website (https://abdulrhmanelsawy.github.io/Primary/)

The Zamil Construction Services Website is a dynamic online platform for a company specializing in construction services. This project serves as a concise and informative hub, showcasing the expertise and offerings of Zamil. The website provides a user-friendly experience, presenting a comprehensive range of construction services, including design, project management, and construction solutions. With its visually appealing interface and clear navigation, the Zamil Construction Services Website effectively communicates the company's capabilities and establishes it as a trusted provider in the construction industry.

Hearing test website (https://hearme.khuprat.com/)

The HearMe Hearing Test Website is a user-friendly online platform designed for testing people's hearing capabilities. This project aims to provide an accessible and convenient way for individuals to assess their hearing health. The website offers a range of scientifically designed hearing tests that can be taken from the comfort of one's own home. With clear instructions and intuitive interfaces, users can easily navigate through the tests and receive reliable results. The HearMe website promotes awareness of hearing health and empowers individuals to take proactive steps in monitoring and addressing their hearing needs.

School Website In London
(https://abdulrhmanelsawy.github.io/school/)

Created a visually appealing and user-friendly website for a prestigious London school. Features include modern design, comprehensive information, multimedia integration, responsive layout, news and events section, contact forms, social media integration. Collaborated closely with the client to deliver a compelling online platform that showcases the school's values and offerings.

Events Website
(https://abdulrhmanelsawy.github.io/brandnew/)

Saudi Arabia Events Website: Created a dynamic website showcasing diverse events in Saudi Arabia. Features include event listings, detailed information, an interactive calendar, user registration, and event submission, and social sharing integration. Designed with a responsive layout for optimal mobile accessibility. Promotes engagement and facilitates event discovery across the country.

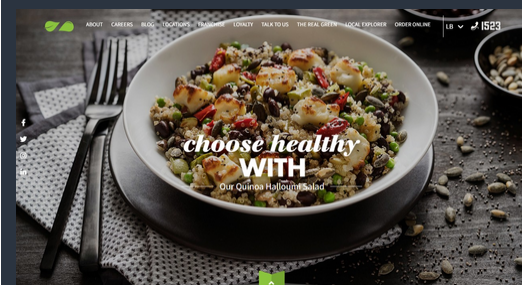

## Beauty Center Website
(https://amalsbeautylounge.com/)

Developed a sleek and user-friendly website for a prominent beauty center in Saudi Arabia. The website showcases the center's services, displays customer reviews, and provides a convenient way to contact the managers. Users can explore the wide range of services offered, read authentic reviews, and easily connect with the center's management. The website offers a seamless experience, effectively promoting the beauty center's offerings and facilitating customer engagement.

Restaurant Website
(https://abdulrhmanelsawy.github.io/zaaterwzeit/)

Designed and developed a captivating website for a restaurant, highlighting its menu, ambiance, and services. The website provides an engaging platform for customers to explore the restaurant's offerings and make reservations. It showcases enticing visuals, describes the cuisine, and offers an easy-to-use interface for a delightful user experience. The website effectively captures the essence of the restaurant, enticing visitors to dine and enjoy a memorable culinary experience.

Adfairy Company Website (https://adfairy.net/)

Crafted a professional website for AdFairy, a dynamic company offering a range of cutting-edge advertising and marketing services. The website serves as a comprehensive platform showcasing AdFairy's service offerings, including digital marketing, branding, social media campaigns, and more. It features engaging visuals, informative content, and a user-friendly interface to effectively communicate the company's expertise and value proposition. The AdFairy website establishes a strong online presence, attracting potential clients and positioning the company as a leader in the advertising industry.

First Falcon Company Website (https://first-falcon.com/)

Developed a professional website for First Falcon, a leading IT company offering a comprehensive suite of technology solutions. The website serves as a one-stop platform to showcase First Falcon's diverse services, including software development, IT consulting, cybersecurity, cloud computing, and more. It features a modern design, engaging graphics, and informative content to highlight the company's expertise and competitive edge. The First Falcon website presents a seamless user experience, effectively attracting potential clients and establishing the company as a trusted partner in the IT industry
